## FOREWORD

---

I am glad to learn that the Directorate of Education is bringing out Publication No. 3 of the Statistical Survey pertaining to the year. 1957-58. This factual review is not only useful for the purpose of reviewing and evaluating the achievements made, but also would prove quite useful for future planning. It provokes thought and brings before the public as well as those who are keenly interested in the development of education, achievements made and the magnitude of the problem still facing the State. It is a matter of great satisfaction that in Rajasthan, it has been possible to make appreciable progress in the sphere of Educational Development; although much remains to be done in this field. I am sure that our efforts backed with determination will be such as to match our needs and aspiration in years to come. I hope the Education Department would come forward with more and more of such useful Publications.

## PREFACE

---

This Publication surveys the progress of education in the Districts of Rajasthan during the year, 1957-58. It gives important statistical information on education in all the Districts of Rajasthan for the year, 1957-58. Like the last year's Publication, it also includes consolidated statistics for the whole of Rajasthan and comparative statistical statements on institutions, enrolment, expenditure and teachers in the different Districts of Rajasthan.

To make the Publication more useful, greater details of institutions, enrolment, expenditure and teachers have been given in addition to few new items, viz., district-wise and class-wise enrolment in Rajasthan, District-wise data for Girls, statistics regarding unrecognised institutions and population trend in Rajasthan.

I would also like to avail of this opportunity of expressing my grateful thanks to Mr. P. N. Bhise and his staff members who have laboured hard in bringing out this Publication as well as to all the Educational Officers and the Heads of the Institutions who have co-operated in supplying the data on which this Publication is based.
